Dear CM Ryu,

My husband and I would like to invite you to our home as our representative and a person who we supported in the election with our votes (and financially).

As a relatively new US Citizen from Switzerland, this is the very first time my husband has voted in a US election. He was genuinely interested in seeing how our democracy works.

We need to see how our support of you is now going to help us in Hollywoodland. This is extremely urgent.

I look forward to your reply.

Heather
